

YOUR BANK STATEMENT, INTO A MONEY PLAN.

Add your bank statement. Get a clear money plan in minutes — the math is exact,
the advice is easy to read.

RAW DATA GOES IN. NO PLAN COMES OUT.

SCATTERED EVERYWHERE

✗ MONEY EVERYWHERE

Your money info is spread across apps, PDFs and spreadsheets.

✗ CHARTS, NOT ANSWERS

Apps show the past. None say what to do next.

✗ AI THAT GUESSES

Chatbots guess numbers they can't actually see.

COMPUTE THE NUMBER. THEN LET AI SAY IT.

First we do the math. Then AI explains it in plain words. **The AI never makes up a number.**

STEP 1 · COMPUTE

THE MATH, EXACTLY

We work out your spending, debt and savings from real data. **No AI here.**

GROUNDING NUMBERS

HANDED
TO

STEP 2 · NARRATE

AI PUTS IT IN WORDS

AI turns those numbers into simple advice. **It only writes — never counts.**

NO KEY? RULE-BASED FALLBACK (OFFLINE)

CHECKED

STEP 3 · VERIFY

ADVICE YOU CAN TRUST

We check the advice against the numbers, so **it always matches the math.**

ONE ALLOCATOR · NO DOUBLE-SPENDING

The result: real advice you can trust — because AI never touches a number.

STATEMENT IN, PLAN OUT.

01

STEP 01

UPLOAD

Add a bank statement — or try the sample.

02

STEP 02

REVIEW

Check the sorted spending, then add debts and goals.

03

STEP 03

GET YOUR PLAN

Get a health score and a clear plan for every rupee.

04

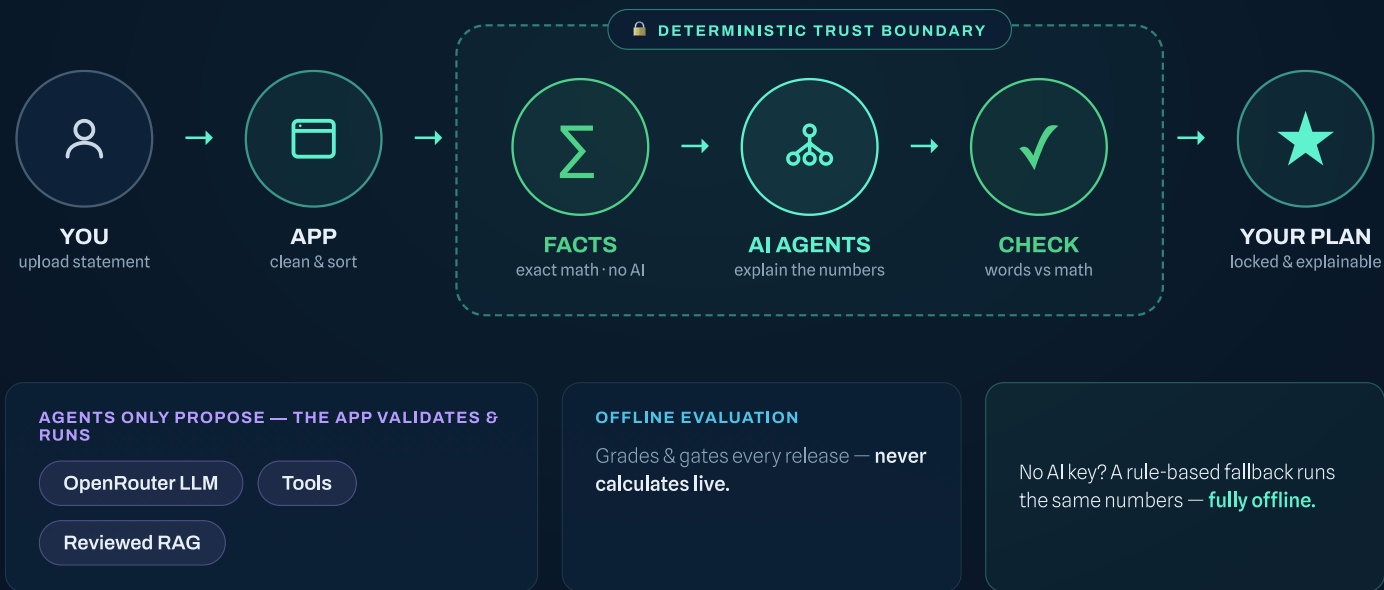

STEP 04

EXPLORE

Ask questions, try “what-if” plans, and export a report.

THE WHOLE SYSTEM, ONE FLOW.

Numbers are computed first. AI only explains them — inside a verified trust boundary.

BUILT TO BE RELIABLE.

WHAT MAKES IT TRUSTWORTHY.

01

GROUNDING IN REAL NUMBERS

AI only gets real numbers to explain — so it can't make them up.

02

A TEAM OF AI AGENTS

One AI each for spending, saving, debt and goals — one clear job each.

03

WORKS WITH ZERO SETUP

No AI key? Built-in rules take over. Works 100% of the time.

04

NO DOUBLE-SPENDING

One planner splits your spare money, so no rupee is promised twice.

ADVISOR-GRADE, FOR EVERYONE.
